The shaded area is equal to α for $\chi^2 = \chi^2_{\alpha}$.

Cara baca table Chi Square

- Berdasarkan contoh Soal 6

Contoh :

6. Suatu pabrik baterai mobil menjamin dengan keyakinan 95 % bahwa baterainya akan tahan rata-rata 3 tahun dengan simpangan baku 1 tahun. Bila lima baterai tahan 1,9; 2,4; 3,0; 3,5 dan 4,2 tahun, apakah pembuat baterai masih yakin bahwa simpangan baku masih 1 tahun.

Cara baca table Chi Square

Contoh :

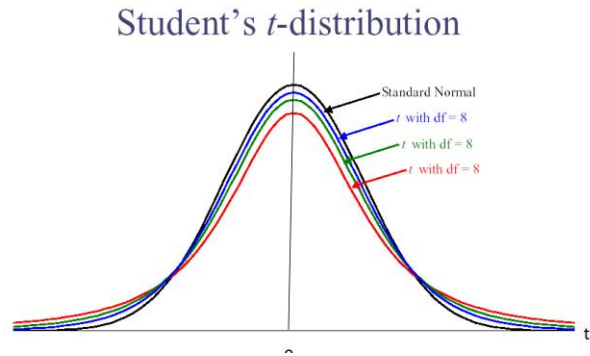

6. Suatu pabrik baterai mobil menjamin dengan keyakinan 95 % bahwa baterainya akan tahan rata-rata 3 tahun dengan simpangan baku 1 tahun. Bila lima baterai tahan 1,9; 2,4; 3,0; 3,5 dan 4,2 tahun, apakah pembuat baterai masih yakin bahwa simpangan baku masih 1 tahun.

Solusi

- Karena 95% nilai χ^2 dengan derajat kebebasan 4 terletak antara 0,484 dan 11,143, nilai perhitungan dengan menggunakan $\sigma^2 = 1$ masih wajar, sehingga tidak ada alasan bagi pembuatnya untuk mencurigai bahwa simpangan baku baterainya bukan 1 tahun.
